

SAP ABAP Interview Preparation - 183 Questions

Your Original 31 Questions

1. Explain about your family background?
2. Why did you choose SAP ABAP as your career option? Is there any particular reason?
3. Are you currently doing any internship?
4. What are the different data types in SAP ABAP?
5. What is the difference between LIKE and TYPE keyword?
6. What is the DDIC?
7. What are the subobjects of the DDIC?
8. What are the different types of views?
9. What is a Data Element?
10. What is a Lock Object?
11. What are the types of tables?
12. What is the difference between Open SQL and Native SQL?
13. What are the different types of internal tables?
14. What is the difference between APPEND and INSERT?
15. What are the different types of reports?
16. What is an ALV Report?
17. What is the difference between Internal Table and Work Area?
18. What is START-OF-SELECTION?
19. What is the difference between SELECT SINGLE and SELECT ... UP TO 1 ROWS?
20. What is modularization?
21. What is User Exit and Customer Exit?
22. What is BADI?
23. How can we create a T-Code?
24. What is the difference between SE38 and SE80?
25. What T-Code is used to find the list of T-Codes?
26. What is debugging?
27. How many maximum breakpoints can we apply in a single program?
28. What is the difference between Static and Dynamic Breakpoint?
29. How can we debug a Function Module?
30. What is Call Stack in debugging?
31. Do you know something about IDocs?

Enhancement (15)

32. What is Enhancement Framework?
33. Types of enhancements?

- 34. What is User Exit?
- 35. What is Customer Exit?
- 36. What is BADI?
- 37. What is Explicit Enhancement?
- 38. What is Implicit Enhancement?
- 39. Difference between BADI and User Exit.
- 40. Difference between Customer Exit and User Exit.
- 41. What is Enhancement Spot?
- 42. What is Composite Enhancement Spot?
- 43. What are Kernel BADIs?
- 44. How do you find Enhancement Points?
- 45. Which enhancement technique do you prefer and why?
- 46. How do you debug an enhancement?

BAPI (12)

- 47. What is BAPI?
- 48. Difference between BAPI and Function Module.
- 49. Why do we use BAPI?
- 50. What is BOR?
- 51. What is Business Object?
- 52. What is BAPI_TRANSACTION_COMMIT?
- 53. What is BAPI_TRANSACTION_ROLLBACK?
- 54. Can a BAPI update DB directly?
- 55. How do you find the correct BAPI?
- 56. What is Return Structure in BAPI?
- 57. Difference between RFC and BAPI.
- 58. How do you debug a BAPI?

Function Module (15)

- 59. What is Function Module?
- 60. Difference between Function Module and Method.
- 61. Types of Function Modules.
- 62. What is Remote Enabled FM?
- 63. What is Update FM?
- 64. What is Normal FM?
- 65. Import parameters?
- 66. Export parameters?
- 67. Changing parameters?
- 68. Table parameters?

- 69. Exceptions?
- 70. How do you create a FM?
- 71. What is Function Group?
- 72. How do you debug a FM?
- 73. Difference between FM and Subroutine.

SmartForms (15)

- 74. What is SmartForm?
- 75. Difference between SmartForms and SAPscript.
- 76. Difference between SmartForms and Adobe Forms.
- 77. What are Pages?
- 78. What are Windows?
- 79. Types of Windows.
- 80. Main Window?
- 81. Secondary Window?
- 82. How do you call a SmartForm?
- 83. Control Parameters?
- 84. Output Options?
- 85. What is Smart Style?
- 86. How do you transport SmartForms?
- 87. How do you debug SmartForms?
- 88. Generated Function Module?

OData (20)

- 89. What is OData?
- 90. Why OData?
- 91. What is SAP Gateway?
- 92. Difference between OData and REST API.
- 93. Entity Type?
- 94. Entity Set?
- 95. Navigation Property?
- 96. Metadata?
- 97. What is SEGW?
- 98. CRUD operations?
- 99. Methods used for CRUD?
- 100. GET_ENTITY vs GET_ENTITYSET.
- 101. CREATE_ENTITY vs UPDATE_ENTITY.
- 102. PUT vs PATCH.
- 103. How to register OData Service?

- 104. T-Code to activate OData?
- 105. How to test OData?
- 106. How to debug OData?
- 107. OData V2 vs V4.
- 108. How is OData consumed in Fiori?

Fiori (20)

- 109. What is SAP Fiori?
- 110. What is SAPUI5?
- 111. SAP GUI vs Fiori.
- 112. What are Fiori Apps?
- 113. Types of Fiori Apps.
- 114. Launchpad?
- 115. Tile?
- 116. Catalog?
- 117. Group?
- 118. Role?
- 119. Gateway?
- 120. Front-End Server?
- 121. Back-End Server?
- 122. Fiori Architecture?
- 123. SAPUI5 vs Fiori.
- 124. How does Fiori communicate with SAP?
- 125. Manifest.json?
- 126. Component.js?
- 127. Protocol used in Fiori?
- 128. Role of OData in Fiori?

Debugging (25)

- 129. What is Debugging?
- 130. Why debug?
- 131. Static vs Dynamic Breakpoint.
- 132. Session vs External Breakpoint.
- 133. Maximum Session Breakpoints?
- 134. Maximum Watchpoints?
- 135. Watchpoint?
- 136. Conditional Breakpoint?
- 137. Call Stack?
- 138. System Debugging?

- 139. Update Debugging?
- 140. HTTP Debugging?
- 141. How to debug Background Jobs?
- 142. How to debug RFC?
- 143. How to debug BAPI?
- 144. How to debug Function Modules?
- 145. How to debug SmartForms?
- 146. How to debug IDocs?
- 147. Roll Area?
- 148. Debugging Layers?
- 149. F5 vs F6 vs F7 vs F8.
- 150. Desktop in Debugger?
- 151. Memory Analysis?
- 152. Change variable values during debugging?
- 153. Debug standard SAP programs?

IDocs (15)

- 154. What is IDoc?
- 155. Why use IDocs?
- 156. Structure of IDoc.
- 157. Control Record?
- 158. Data Record?
- 159. Status Record?
- 160. Inbound vs Outbound IDoc.
- 161. T-Code to monitor IDocs?
- 162. What is WE02?
- 163. What is WE19?
- 164. Partner Profile?
- 165. Message Type?
- 166. Basic Type?
- 167. Process Code?
- 168. How do you debug an IDoc?

Performance Tuning (15)

- 169. What is Performance Tuning?
- 170. SQL Trace?
- 171. What is ST05?
- 172. What is SAT?
- 173. Why avoid SELECT *?

- 174. What is FOR ALL ENTRIES?
- 175. Secondary Indexes?
- 176. JOIN vs FOR ALL ENTRIES.
- 177. Buffering?
- 178. Types of Buffering.
- 179. Code Inspector?
- 180. Runtime Analysis?
- 181. Parallel Cursor?
- 182. Optimize database access?
- 183. Best practices for efficient ABAP?

Workflow/RFC/ALE (15)

- 184. What is RFC?
- 185. Types of RFC.
- 186. RFC vs BAPI.
- 187. What is ALE?
- 188. ALE vs EDI.
- 189. ALE vs IDoc.
- 190. tRFC?
- 191. qRFC?
- 192. bgRFC?
- 193. Logical System?
- 194. Distribution Model?
- 195. Partner Profile?
- 196. SM59?
- 197. How to test RFC?
- 198. How to debug RFC?
